Primary in Kentucky.
Louisville, Ky., Aug. 1.—Interest in the primary campaign that has been waged by former Governor James McCreary for the Democratic nomination for the long term in the United States senate and in vigorous contests in several districts for nominations to congress was expected to grim out a large vote today in the statewide primaries of Kentucky Democrats, Republicans and Progressives.

WALK THROUGH OUR BAKERY
and examine the way we do things,
how we buy our flour, etc., the kind
it is, how we store it, handle it, mix
it, bake it, and then you will be con-
vinced that there is no more cleanly
bakery to be found. You will then
know that you can rely absolutely on
the purity and wholesomeness of
every loaf of bread you buy here, also
rolls, cake, and fancy breads. One
visit will convince you.

BILL TO PROTECT FOREIGN SHIPS AGREED ON

Measure Which Permits Registry as American Vessels will be Pressed for Passage Monday.

JULY WAS MONTH OF HIGH LIGHTS IN BASEBALL

Unusual Occurrences Marked the Period. Amateur Spirit Displaying Great Strength Throughout the Country

[Special Dispatch to Evening Herald]

New York, Aug. 1.—President Wilson and congress leaders agreed today on bill to modify and amend the Panama canal law to permit foreign ships to take American registry in the European crisis. It will be pressed for passage Monday.

American Ship Owners Opposed.
New York, Aug. 1.—Officials of the American Steamship association composed of various coastwise lines, are disturbed by the news from Washington that a movement was on foot there to present an emergency measure to congress which would enable the large trans-Atlantic steamships to obtain American registry.

H. R. Raymond, president of the association, said he feared that any hasty action by congress might permanently injure the American merchant marine.

"At the present time under the Panama act of 1912," Mr. Raymond said in a formal statement, "any foreign built ship which at the time of its application for admittance to the American register is not more than five years old can become an American vessel. If officers must be American citizens, however, and if can enter all trades except the coastwise trade. Only American ships can enter the coastwise trade."

"The association fears that unless congress uses the proper deliberation in considering any measure to cover the threatened European war, a blow at American shipping may be struck. For instance, the legislative body of the nation must be careful in revising any existing legislation to see that no error occurs by which these foreign vessels are allowed in the coastwise trade."

Sights Two Big Supply Bills.
Washington, Aug. 1.—President Wilson today signed the sundry civil and Indian appropriation bills.

Hailed With Relief.

New York, Aug. 1.—The news from Washington that a bill to admit foreign ships to American registry was to be pressed for immediate passage by the administration, was hailed with relief today by the export trade in this city. It is estimated that 150,000,000 bushels of wheat engaged for export within the last month, are being held up either in the west or at seaboard ports for lack of ocean transportation. At least 12,000,000 bushels have already accumulated on the seaboard and exporters have been hard hit.

Chicago Endorses Plan.
Chicago, Aug. 1.—Directors of the Chicago board of trade today adopted resolutions urging the federal government immediately to amend the navigation laws so as to remove restrictions of foreign vessels which wish to enter the American registry. A copy of the resolutions was telegraphed to President Wilson and to Senators Sherman and Lewis of Illinois.

Amateur Spirit Strong.

While interest in professional baseball appeared to lag somewhat early this season and the attendance at big league games showed a considerable falling off, there seems to be no lack of activity among the amateurs who take part in outdoor sports of the more strenuous order. This can readily be accounted for by the amateur field, which embraces not alone the national game on the diamond, but golf, tennis and kindred sports. The trend of the hour among those who follow these active sports seems to be a desire to be participants in rather than spectators of these various forms of recreation.

Inquiries made among the big markets where golf, tennis and baseball paraphernalia is sold elicited the assurance that the demand for accessories for all these games has increased wonderfully this season. The sales of golfing requisites far exceed those of any previous year since the ancient and royal game was introduced here two decades ago. The market for tennis racquets and other appurtenances shows a decided gain over last year, while the demand for baseball supplies in every grade was never more pronounced.

The international contests have made interest keener in these sports goes without saying and there is no telling to what extent it may increase, as from all quarters reports indicate that the feeling of anxiety for national supremacy is worldwide and not likely to abate for years to come in every branch of sport.

In every part of the country golf and tennis clubs are enjoying unusual success as the increase in active membership and the many lengthy waiting lists of those desiring to join clearly testify. Golf particularly has secured a decided prominence and the proficiency shown by the younger element has made it incumbent on the officials of the United States Golf association to confine their entries for national honors to those who are rated at five strokes or under in the handicap list this year.

This arrangement was made necessary in order to keep the field of players within reasonable bounds. That similar action will have to be taken by associations all over the country for their annual championships seems inevitable as the entries for these events are growing larger each year and consequently without this restriction the fields will assume proportions too unwieldy to handle with any degree of satisfaction.

NO GRAND OPERA! GOODNESS GRACIOUS!

Chicago, Aug. 1.—War in Europe would deprive Chicago and the west of grand opera this year. It was painted out here.

BRITISH JOY OVER WELLS VICTORY IS DAMPENED

Bell Proves to Have Been Sick Man When He Fought, and Totally Unfit for an Appearance in Ring.

London, Aug. 1.—The operation for abscess in the ear upon Colin Bell, the Australian heavyweight, has cut short the joy of British boxing enthusiasts over the recent victory of Bomber Wells.

Bell, his physicians now say, was a sick man when he stepped into the ring with the Bomber, and should never have been allowed to fight. But this fact was carefully concealed from the public by his managers, who denied rumors of the kind previous to the fight. Bell admits he thought the fight was so easy he could win even in bad condition, and helped in the deceit. He says he is promised another match with Wells, as soon as he recovers.

The operation was serious, taking about two and a half hours. Besides the abscessed ear, his nose and brain-tube were blocked with blood clot the night of the fight.

In view of his condition, the readings of the British press over Wells' "coming back" and "English prestige restored" are now thought to have been premature.

WAR

(Continued from Page One.)

conscience in the knowledge that we did not seek war. We shall then wage war for our existence and for the national honor to the last drop of our blood.

"In the gravity of this hour I remind you of the words of Prince Frederick Charles to the men of Brandenburg:

"Let your hearts beat for God and your rifles on the enemy."

Enthusiastic cheers and the singing of the national anthem greeted the close of the imperial chancellor's speech.

An official communication published today in the North German Gazette says the Russian emperor on July 29 telegraphed Emperor William, urgently requesting him to help in averting misfortune of a European war and to try to restrain his ally, Austria-Hungary from going too far.

Emperor William replied that he would willingly take up the task of mediator and accordingly diplomatic action was initiated in Vienna.

While this was in progress, the news that Russia was mobilizing reached Berlin and Emperor William telegraphed to the Emperor of Russia that his role as mediator was by this endangered if not made impossible.

The conditions under which the diplomatic "conversations" continued today made it in the French official view, appear almost impossible to expect a satisfactory outcome of the international crisis. England's efforts at Berlin yesterday, they said, had failed and any glimmer of hope which had appeared had been immediately extinguished.

By Myron T. Herrick, the American ambassador, acting under instructions from Washington, to take over the affairs of the German embassy, while Alexander H. Thack, the American consul general is to look after the affairs of the German consulate.

The German ambassador to France has packed and was ready to leave at 1 o'clock this afternoon when a dispatch reached him from Berlin making some sort of suggestion, which the French government took into consideration, and about which it exchanged views with London and St. Petersburg.

foreign office to the correspondent concludes:

"These negotiations as well as the intermediate action of the German government were ended by the mobilization of all arms in Russia on sea and land."

The declaration of the foreign office was admitted given, according to the correspondent, "in the hope of yet preventing a world war and as an alternative of justifying Germany's position to England, whose friendship she still desires."

Sanitary reasons prompted the invention of a new sugar receptacle which delivers a small portion of its contents through a spout as a valve is opened by a lever attached to its handle.
